

EU Comenius Project

SciCamp Partners

Three aims of the project

1. Connect different science camp organizers to form a strong connection among European countries, exchange best practice and research on development of these camps.
2. Connect summer camps to local companies with technical and science products as well as regional universities, technical universities and other academic institutions working in the STEM field.
3. Extracting practical ideas and research-based results from the science camp inquire based programs to bring them to classroom practice in schools located in the science camps regions.

Why science teachers
should not be given
playground duty.
